### Book reviews

Advances in composite materials 143  
Composite materials in the auto-mobile industry 143  
Hybrid and select metal matrix composites – a state of the art review 14  
Non-metallic materials and composites at low temperatures 204  
A review of the determination of dynamic properties of polymers and composites 204

### Conference reports

Blister formation in grp 142  
First french national conference on composite materials 67  
Jointing in fibre-reinforced plastics 12  
Materials in sport – Materials Science Club annual conference 66  
Mechanical properties of biomaterials; and bioceramics symposium 12

### Research reports

A method for the fabrication of wire-reinforced metal matrix composites 126  
Properties of a novel tertiary butyl styrene unsaturated polyester resin exhibiting outstandingly low monomer loss 238

### Titles

Acoustic emission detection using a piezoelectric strain gauge for failure mechanism identification in cfrp 101  
Application of the finite element method to the analysis of a skeletal/continuum grp space structure 81  
Carbon fibre-reinforced plastics as a material for high speed rotors 149  
Cfrp – a decade of progress 195  
Characterization of properties of asbestos-reinforced rigid pvc 31  
A comparative investigation of some methods of unidirectional, in-plane shear characterization of composite materials 233  
Coupling agents in wood fibre-reinforced cement composites 228  
Determination of safety factors for use when designing bolted joints in grp 73  
The experimental determination of moisture distribution in composite laminates 37  
Fibre cement composites: research at BRE 17  
Fibre/matrix interactions in a tungsten alloy wire-reinforced stainless steel composite 121  
Fibrous materials for the filtration of liquids 206

Flexural fatigue properties of unidirectional grp in the transverse direction	28	The influence of stretch data for reinforcements on the production of complex structural mouldings. Part 1	161	A study of the effect of natural weathering on the creep behaviour of glass fibre-reinforced polyester laminates	39
The flexural strength of cement-based composites using low modulus (sisal) fibres	145	Part 2	168	A study of the stress distribution in rotating, orthotropic discs	77
A fractographic study of fatigue in cfrp	174	Internal reinforcement joints in grp under static and fatigue loading	89	Tensile and impact strengths of unidirectional, short fibre-reinforced thermoplastics	111
Fracture mechanics in composite materials	223	The mean stiffness of thermoplastic composites	153	A theoretical approach to the deformation of honeycomb-based composite materials	209
Glass fibre-reinforced cement. A progress report	69	Mechanical and conductive properties of metal fibre-filled polymer composites	95		
Hybrids - a review: Part 1. Techniques, design and construction	215
